Date

📅 09 Jun 2015 10:00 to 10:40

Attendees

- Thomas Cherry
- Christopher Gokey
- Chris Durbin

Topics

- Posting DIF 10 to UAT is ready for testing
- there is an echo status internal mailing list (https://lists.nasa.gov/mailman/listinfo/echo-status-internal)
- query thoughts, POST of JSON based on elastic search
- Durbin showing progress on science keyword results in field counts ; jira:CMR-1387
    - doing a page_size=0 gets you just facet counts, good for tree view in refinement
    - bucket levels for archive_center
- CMR-1678 - what does it mean, does GCMD need to track "has been reviewed"
- next meeting on thursday, will show facets and maybe more info on query language.
